

## **Stakeholders Engagement Survey on Ease and Scope of Becoming Registered Valuers**

As you are already aware, ICAI Registered Valuers Organisation is a Section 8 Company, registered by IBBI under asset class Securities or Financial Assets with a member base of 863 Registered Valuers and 3390 Primary members and has over 50% Registered Valuers in the respective asset class.

We are pleased in bringing out this survey for understanding our stakeholders'/members' outlook on the ease and scope of becoming a Registered Valuer in the current valuation ecosystem.

Ever since Sec-247 of The Companies Act, 2013, Insolvency and Bankruptcy Code, 2016 and The Companies (Registered Valuers and Valuation) Rules, 2017 defined the new ecosystem for profession of Registered Valuers; the Registered Valuers as a credential is gaining space through availability of pool of Valuers as registered by different RVOs.

While the Valuation as a profession has come a long way; it still has to increase its presence to bring more value to society and stakeholders and to that end the ICAI RVO is already endeavoring to bring better quality education, programs and service tools and take all steps to enhance the professional capacity of its Registered Valuers Members and Primary Members.

ICAI RVO; in order to consider its members aspirations and perspectives; which need to be adhered to enhance the professional aspects of the professional domain, considered their concerns in undertaking this Stakeholder Engagement Survey which is divided into 6 parts as under:-
